ABOUT PRESTOTEX

PrestoTex Print Media is a digitally printable polyester wall material, perfect for large-scale wall coverings or contour cut decals. Any image, pattern, branding, or graphic can be printed and installed with ease. PrestoTex is removable, repositionable, leaves no adhesive behind once removed, and is easy to install without the mess of paste and water. PrestoTex is available with or without our exclusive peel-and-stick adhesive backing. It allows you to transform a room for a season, the term of a marketing campaign, or permanently without peeling, wrinkling, or curling.
